- Automated Time Clock Polling And Report Generation
- Includes an On-Line Approval Editor

Remember, employee payroll is

**YOUR BIGGEST
EXPENSE...**

TAI00 PRO is a simple to use yet powerful time and attendance solution that allows you to automate your company's timekeeping and attendance tracking. TAI00 PRO completely eliminates paper timesheets, which are the root of most payroll nightmares! Employees enter data at an electronic data terminal using magnetic stripe, bar code or biometric technology. Optional PC entry is available. The TAI00 PRO software collects these transactions and your pay rules are applied automatically, consistently and impartially.

The TAI00 PRO's powerful reporting system provides you with the tools to better manage your labor force. TAI00 PRO's reports help you avoid unauthorized overtime, track employee status, track benefit administration, control departmental costs, monitor staffing, perform job costing, and much more.

The automated time clock polling and report generation capability allows you to define a processing schedule. TAI00 PRO will poll the time clocks, process reports and even email them to supervisors automatically without operator intervention. The optional Benefit Accrual Module allows you to define benefit accrual calculations that automatically update your employee's accrual balances.

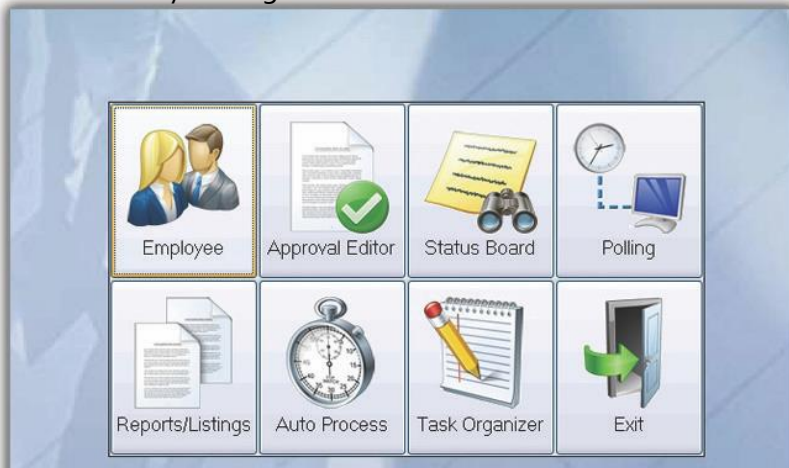

Eliminate Payday Panic! Know exactly where your employee's time and dollars are spent by implementing *your* rounding rules, not your employee's. By removing human error, accurately reporting employee hours and dramatically reducing the amount of time spent on payroll preparation, TAI00 PRO will pay for itself in less than one year!

**Automate the calculation of employee's time.
Apply complex pay policies.**

Improve workforce productivity while reducing your total payroll costs

Put a stop to unauthorized overtime and costly payroll errors.

- Give your managers the tools they need to make better decisions and control labor costs.
- Reduce the risk of costly payroll errors and inflated labor costs.
- Eliminate paper timesheets and other error-prone manual and homegrown processes.
- Deliver pay accurately and on time with consistent pay practices.
- Improve overtime management and apply pay and work policies consistently and accurately across your organization.

Reports that help you gain better control over Your Business:

Labor utilization and Costs:

Efficiently maintain productivity and performance while meeting your business goals by making sure the right people are scheduled to work at the right time. Better manage your labor to budget with automation tools such as actual vs. budgeted and coverage reports. Identify personnel to fill open shifts without having to pay overtime.

Risk of noncompliance:

Manage FMLA and overlapping state leave laws more easily and track intermittent leaves. Reduce labor-related costs and liabilities by automatically and consistently applying company policies, union rules, and government mandates across your organization.

Employee Attendance Infractions:

Gain unprecedented visibility into employee absenteeism, trends and patterns. Enforce attendance and leave policies consistently in order to reduce payroll inflation and control unauthorized employee absences.
